

#### Explanation:

Customer and Tickets: One to One or One to many, you can have one customer purchase a ticket or one person can purchase many tickets.

Customer and Movies: There can be zero customers that do not go and see a specific movie, but there will usually be many customers that go see various movies.

Tickets and Concessions: The ticket id has nothing to do with the sale of food and beverage items, but ticket\_ids are specific to each individual in the movie theater, therefore one person with a ticket may not buy any items or one person with a ticket may purchase many items.

Tickets and Movies: One or many people will purchase tickets to go see one specific movie.
